

February 13, 2004

Dear Karafin Staff,

Hi. I hope this letter finds everyone in good health and the school running in tip top shape since Eudel is no longer there 😊. I know you all must really miss him. Eudel has grown into quite a young man. He is now attending a program called B.T.I. where he is excelling in computer graphics. Next month he will be graduating from the program and entering the work force. In preparation for that they have already hired him at B.T.I. and I am very proud of him. I worried about him holding his own in the work force since there are so many personalities to deal with, but all in vain. He handles himself very well when conflicts arise, so all those years at Karafin and his support here at home have really paid off. You have really lived up to your claim to help every student to achieve their maximum potential. This has definitely proved true in Eudel's case and you would be just as proud as I am. Eudel tells me he is going to visit you all soon. Enjoy the pictures enclosed and thank you once again for your years of endurance 😊.

Sincerely,

Ms. Linda Law
